Re: CIP lagoons

Sir:

On behalf of the Municipal Council and the citizens of the Town of Hawkesbury, I would like to make a formal complaint concerning the noxious odours coming from the former CIP lagoons in the West end of the town.

The smell is noticeable every day but gets worst when the weather is humid. People living in proximity have stopped making any complaints to the ministry since nothing has been done to correct the situation. However, during my electoral campaign, I have received numerous verbal complaints to that effect.

I trust the Ministry of Environment will get involved with the Ministry of Natural Resources to decontaminate that site and solve the problem once and for all.

Sincerely,

A handwritten signature in cursive script that reads "Jeanne Charlebois".

Jeanne Charlebois
Mayor
